

Gregory Woodside

Chicago, IL | (847) 922-6615 | gregforhire@pm.me | | github.com/gregside

EXPERIENCE

Software Test Engineer I, Feb 2022 – Present

Backstop Solutions Group - Chicago, IL

- Maintain automated test suites in Ruby using Selenium and RSpec, providing regression coverage across core application workflows
- Design and execute API load tests with Postman to validate endpoint stability and performance under concurrent load
- Author manual test plans for features outside automated coverage, coordinating with engineering to close coverage gaps

Client Care Specialist / Team Lead, May 2021 – Feb 2022

Backstop Solutions Group - Chicago

- Managed ticket routing and workload distribution for a Tier 1 support team, improving resolution accuracy and response times
- Authored support procedure documentation that was adopted org-wide by the Client Care department

Marcus Theatres, Gurnee — Assistant Manager

October 2016 - May 2019

- Assisted GM with hiring, training and associate development
- Supervised, motivated, and coached theatre associates to sustain exceptional levels of performance and appropriately counseled associates when they did not meet expectations

EDUCATION

College of Lake County, Grayslake — Associate's Degree

August 2015 - May 2019

SUMMARY

Software Test Engineer with 4+ years of experience in QA automation, API testing, and front-end development. Proficient in Ruby/Selenium/RSpec and API load testing with k6 and Postman. Brings TypeScript and React fluency alongside a track record of bridging QA and engineering workflows.
